

WORKING GROUP THREE

New insights into socio-cultural phenomenon that contextualize labour and birth, including marginalized groups and migrant women.

Topic area

New insights into socio-cultural phenomenon that contextualize labour and birth, including the effects of dissonance between dominant cultural social expectations including marginalized groups and migrant women.

Sub-working groups for WG3

The working group is divided into the following sub-groups:

Group One – (experiences) lead Zora Raboteg-Saric - zora.raboteg-saric@pilar.hr

Group Two – (values in health care) lead Sarah Church - churchs@lsbu.ac.uk

Group Three (migrant women) – lead Marie-clare Balaam & Mel Cooper - m.Cooper2@bradford.ac.uk; mbalaam@uclan.ac.uk

Group four – (satisfaction and culture) lead Jo White - jowhite67@yahoo.co.uk

Early career representative for WG3 – Triin Roosalus

Sub-group – Childbirth experience (lead Z. Raboteg-Saric)

Topic 1 : Women's experiences of labour and birth: a review of multidimensional assessment tools (Zora Raboteg-Saric, Gracia Maroto & Camila Higuera)

Progress:

- Draft plan of aims and methodology (search strategy, keywords, inclusion/exclusion criteria) developed
- Literature search completed
- Selection of eligible studies in progress

Outcome: Outcome: paper submitted

Topic 2 : Optimizing childbirth in Croatia – the best things about care (A. Mujkic, Z. Raboteg-Saric & A. Brajsa-Zganec)

Work in progress: finalising the paper

Outcome: paper submitted

Topic 3 – Survey Development

Z. Raboteg-Saric:

- Worked on the development of the new version of BBB survey (July 2015 – January 2016)
- Translation of the new survey to Croatian language (Zora Raboteg-Saric) - finalised
- *Future work/interests*: to explore opportunities to undertake cross-cultural study of women's childbirth experiences based on new BBB survey data

Output – a paper on this data

Group two Values in health care – Sarah Church

Topic 1 - Preparation of publication on 'Conscientious objection and health care professionals' – Flemming et al (paper submitted to Journal of Medical Ethics)

Topic 2 - Church – STSM successful application. Topic: ‘The socio-cultural context of midwifery care in the Czech Republic’. Visit planned for April 4th-8th 2016 to work with Dr Ema Hresanova, Assistant Professor, University of West Bohemia.

- **A critical discussion of values underpinning maternity care across Czech Republic, Turkey, Hungary and the UK** - Sarah Church, Ema Hresanova, Serap Ejder, Ayşe Parlak Gürol and Orsi Hubert– paper progressing well submission anticipated in the next 3 months.
- **The concept of woman-centred care: a comparison of maternity services between the UK and Czech Republic.** Dr Sarah Church & Dr Ema Hresanova - paper in progress based on STSM completed in April 2016. Further research is being planned on the basis of the STSM - proposal being developed and funding being explored at present.

Outcomes – papers and possible grants

Topic 3 - Student midwives' perspective on the ethics of abortions: A qualitative study
The data has been collected data, analysis in progress.

Ayşe Parlak Gürol, Sarah Church and Serap Apay

Outcome – a paper

Group 3 - migrant women – lead Marie-Clare Balaam & Mel Cooper -

Topic 1a - Concept analysis of ‘pregnant migrant women’ followed by work on discourse analysis of terminology used in different discourses.

- Progress/ next steps: Work on going – analysis underway submit paper to journal of Advanced Nursing January 2017

Topic 1 b: Investigation of access policies for migrant women across Europe

- (Marie-Clare, Dineke (has had to withdraw), Mel, Valerie, Alena, Sanja, Triin)
- Progress: template distributed to COST Action – some results in, but agreed to re send to ensure wider coverage
- Next steps – collation of data & initial (descriptive) analysis to be undertaken
- December 2016: Need to identify lead person and establish time plan for this. MCB will send round recap & try to move this on by contacting people who may be interested and writing up a clear description of what we are trying to do, but we need people who will actively take this further. Sanja has indicated that she is interested in working on this area.

Topic 2: Using existing BBB data, examine the current data on migrant women

Topic 2 a: General migrant data from survey (MC, MCB, Naseerah)

- Data obtained and cleaned by Jenny, Tomasina (with support from Marina), next steps analysis of data and consideration of whole data set which is now available, although we do not have ethics from the use the later data set) Dineke, Tomasina and Jenny are no longer involved in the work we are hoping to ask our colleague Naseerah to support us with this)
- Data set produced and initial analysis work done on this by Mel Cooper’s daughter – report produced.
- December 2016: Colleague of Mel at Bradford University will take this forwards beginning January 2017

Topic 2 b: Use BBB data to focus on the Czech Republic

Czech women giving birth abroad and non Czech women giving birth in the CR & identify and map the movement from east to west or reversely. (Alena)

- December 2016: project progressing article will be published in Czech language publication.

Group 4 - Sub-group – satisfaction – led Jo White

Aim - To conduct a critical review of existing literature on measuring women's satisfaction and publish a paper based on this review

- tasks: preparing search terms (translating terms, agreeing) agree databases, carry out searches

- searches carried out and data analysed November 2016

Outcome – paper to be submitted May 2017

Marina Weckend Reflections of a midwife in a German refugee camp *The Practising Midwife* November 2016 <http://www.practisingmidwife.co.uk/tpmindex.php>
Abstract

In response to the Syrian war and other conflicts, a large number of refugees arrived in Germany in summer 2015. Unprepared for the arrivals, many communities had to set up emergency accommodation to bridge the time between their arrival and the allocation of permanent housing. In a remote camp with up to 1,700 residents, Marina Weckend set up a midwifery service to reach out directly to women and their families. The service was facilitated by the German Asylum Seekers' Benefit Act, which states that all maternity care, including referrals and prescriptions have to be accessible and free of charge for asylum seekers. In this article, Marina recounts the stories of three families whose experiences highlight the meaning and importance of health care access, acceptability and equity, particularly for women and families with a background of displacement.
